Gemb reports (under evidence or prop)
Got neither dispute nor answer,
just typical exercise unrestrained
FBI power. It does whatever illegal
thing it desires, answering to no one.
P2 par 2 suppression of this picture
is another brute display. The FBI
engaged in a knowing whitewash of
this part of the assassination story.
It failed to use this recent picture
of the men (WWII, C7, NO _____) But
because the FBI acted as the Com's
inv., this picture belongs in the
arch. The FBI is a law unto itself. The
picture is not there, and these men
and their possible part in the ass story
story is, as best the FBI can manage it
still suppressed and misrepresented.
Check this par against answer.
Par 3, but notes. explain originals
must exist, xerox in record, refer
back. The failure to produce these
notes after I requested them and establish
established they were required to be in
in the arch means suppression is deli-
berate. The originals exist and there
is no telling how many xeroxed copies
except the one place they are required
to be, the one place they can do some
good, the one place those familiar with
the story of the ass as the members of
the Com were not can see and study.
